

Dear Parents and Carers,

It is great to be working with your school with our Internet Safety Online Learning Package. You can find information here on the topics covered throughout the Online Lessons.

OpenView Education specialises in Internet Safety, Anti-Bullying and Mental Health and Wellbeing Training. We work with students, parents and carers, and professionals working with young people.

We have a positive and supportive approach to our training, our content is delivered through theatre, performance, and animations, making it engaging and memorable.

Thank you for taking the time to read through this information.

Kind Regards,

The OpenView Education Team.

## The Internet Owl – Be Kind Online (EYFS/KS1)

Are you all sitting comfortably? Because it's time to go on an exciting adventure into the Internet Jungle!

In this Press & Play Internet Safety Lesson, students will go on an interactive journey with the Internet Owl, and help him to teach all the animals in the Internet Jungle how to be kind online.

Toby Tiger is feeling upset about the unkind comments that his friends wrote on the picture he shared online. But do not fear! The Internet Owl swoops in to teach all the animals in the Internet jungle how they can be kind online.

In this unforgettable e-safety story, your students will meet Toby Tiger, Cecilia Crocodile, Marshall Monkey and Helena Hippo. Throughout the story students will be up on their feet taking part in the action and talking about the key learning points.

At the end of the story, all students have the opportunity to take part in creating Be Kind Online Posters, helping you all to remember the important lessons learned.

### Learning Outcomes:

- I can talk about how anyone experiencing bullying can get help.
- I can describe how to behave online in ways that do not upset others and can give examples.
- I can describe ways that some people can be unkind online. I can offer examples of how this can make others feel.

Would you like to find out more about The Internet Owl? [You can watch a video trailer of the lesson here.](#)

## Message Groups & Cyberbullying (KS2/KS3)

As students begin to communicate online, there may be challenges with message groups.

What can start out as an 'in-joke' or 'banter' can sometimes go too far and become cyberbullying, or students may write messages in groups without really thinking about the further consequences of their actions.

That's why we created Message Groups and Cyberbullying – The Press & Play Lesson.

Students will meet the character of Sophie and hear her story about how her friends start cyberbullying another student at her school in a message group.

Will Sophie join in? Or with the help of your students will she make the brave decision to play her part to stop cyberbullying from happening at her school?

### Learning Outcomes:

- I can give examples of how bullying behaviour could appear online.
- I can identify ways of getting support if I see or experience cyberbullying.
- I can describe how to capture bullying content as evidence (e.g screen-grab, URL, profile) to share with others who can help me.
- I understand the psychological and emotional impacts of cyberbullying.
- I understand how cyberbullying can start and progress in a message group.
