Class Name: Conway Term: Autumn 2

Topic: Dinosaurs

What we have been learning this term:

Some photos of us!

Hello from Conway!

This term has had a Jurassic twist, learning all about dinosaurs. We've taken this term's theme and used it through play, art, sensory exploration. We have made a lot of mess this term and that means a lot of learning!

In art we have explored different textures with paper mache dinosaur eggs. We've been scientific with our vinegar and bicarb volcano. We have created giant sensory Pudsey bear and father Christmas.

Our morning activity sessions have continued covered an array of different communication, literacy and mathematical learning and we've started to see even more engagement and even some emerging mark making!

Communication and interaction has been wonderful in Conway Class this term and we are seeing some wonderful moments and developing skills.

We have had a great festive period in class this term, firstly celebrating Diwali after the half term break and Christmas in December.

We hope you have a good holiday period and wish you a Happy New Year,

The Conway Class Team

Dates & Points to remember:

- **Monday 8th January 2024 – Staff training – No school**
- **Tuesday 9th January – First day back for students**
- **Friday 9th February – Last day of term 3**
