Class Name: Conway Term : Spring 1 2024

## What we have been learning:

This term in Conway, we have started our Wednesday morning visits to the MakeSense Theatre in Primary hall. Students have enjoyed learning all about 'Discovia', a place deep in the rainforest through a mix of multi-sensory approaches alongside dancing, singing and storytelling. It has been a big hit and we can't wait for the next chapter.

We have continued cooking this term, looking at different recipes requiring different skills and sensory approaches. Our little cooks have moved into the world of pastries whilst also continuing to explore ingredients in an investigative way!

Adventure time has continued to host different stations of activities and it has been wonderful to hear and see some amazing communication from all of Conway class through these sessions and across the day.

We're very lucky to have had a mild January overall, and this has been great to continue our outdoor play which has been the best time of day to chase, run, hide and play games to raise our heart beats and expel some energy.

This term we've also looked at expanding horizons and transitioning further around school. It's been great to go further and we look to do even more as the year progresses.

We hope you have a good half term  
Conway
