

Classroom News

Class Name: Arundel

Term: Term 4 2023-2024

What we have been learning this term:

Arundel have had a very active Spring term. At Earth Trust they have been planting crops ready for spring including cauliflower, onions, beetroot and peas. Students explored a history day looking at artefacts from the Stone age to Roman era and even had the opportunity to watch a rocket launch live of TV! They discovered newts in their habitat and looked at invertebrates under a powerful microscope as well as meeting a lot of lambs!

At Parkour and Gymnastics, all the students listened and followed instructions carefully for safety, working together and supporting each other to learn forward and back flips and take calculated risks.

Students continue to consider a balanced diet and cook some healthy options as well as Easter treats.

Arundel have been learning about negative and positive integers and non-fiction texts this term as well as enjoying opportunities to write their own stories using some of the skills learned last term for effective writing. They have joined in PE, drama and music lessons; some are taking part in the showcase at the end of term.

Arundel students are creative with an excellent imagination and have made and shared games and quizzes with their friends, playing each other's creations and taking it in turns and supporting each other when they don't win. They are not necessarily as understanding when the game does not go to plan for staff joining in!

Arundel Team

Karin, Katie, Kelly, Emily and Michelle
